TECHNICAL INFORMATION

Cabinet with hinged doors with touch latch system and equipped with a working station, available in two heights: 147,8 cm and 220 cm; it can be integrated into the Living & Young System programs.

In both height configurations, the central tilting door becomes a self-supporting desk; the open compartment is equipped with a shelf made of micro-perforated metal sheet, with cable gland, LED lighting and upper flapping door.

The short version - 147,8 cm high - features a lower storage compartment, while the tall version - 220 cm high - has two storage compartments.

It is compulsory to fix the system to the wall.

H of desk from the floor cm 76,2.
