TECHNICAL INFORMATION

Double-function transforming system.

In its day-time set-up, the system features open-faced sections and storage compartments and is completed by a large, flip-up table, with legs stored inside the structure.

A simple rotational movement transforms it into the night-time set-up, with a ready-to-use double bed with slatted bed base and extractable side tables on both sides.

Bed base with reinforced tubular steel frame and slats in solid beech plywood attached to the frame with adjustable nylon/rubber seals. On request it is possible to finish the bed base profile with curved wood.

Mattress locking belts in nylon with fasteners in black nylon.

Textile headboard fixed directly to the back panel through automatic buttons, wash as labelled on textile.

Available mattresses - H cm 18 double cm 150x 190 weight kg 27-29 in versions springs, memory, memory 7 zone, memory deluxe, latex and mattresses complying with usa relevant regulations.

Table: Dimensions cm W 158,8 x D 66,8 x H table from the floor cm 72,5.

H of bed base from the floor cm 40.

Maximum capacity of the bed kg 300.
